

Energy Community climate and energy reporting under the adapted Governance Regulation

Annual project meeting

2-3 June 2026 | European Commission Representation in Estonia

Rävala pst 4, 10145 Tallinn, Estonia

OBJECTIVES

The annual project meeting brings together heads of climate change and energy units from relevant ministries and agencies across the Energy Community Contracting Parties that report under the adapted Governance Regulation, along with representatives of the Energy Community Secretariat, DG ENEST, DG CLIMA, DG ENER, and the EEA. It provides a forum to review reporting progress and challenges, align stakeholder expectations and priorities for project activities, and agree on the project's workplan for the coming year.

Expected outcomes:

- Assess the current state and quality of reported data, identifying key strengths, gaps and common challenges
- Exchange experiences and good practices in building institutional capacity to support high-quality data collection, management and reporting
- Identify and discuss concrete actions to improve data quality across reporting obligations, clarifying roles and responsibilities among involved actors
- Take stock of the agreed action points from the previous year's meeting, and agree on the project's forward-looking plan of action, including clarifying priorities, timelines and responsibilities for the next implementation period

DAY 1 2 JUNE 2026	
08:30-09:00	Registration and coffee Participants arrive at the event venue.
09:00-09:30	Welcoming remarks <i>Helena Braun, Head of Political Team, European Commission Representation in Estonia</i> <i>Eva Jensen, Head of Climate and Circular Economy Department, EEA</i> <i>Laura Remmelgas, Head of Climate Department, Ministry of Climate of Estonia</i> <i>[Virtual] Adam Cwetsch, Head of Decarbonisation and Governance Unit, Energy Community Secretariat</i> Welcoming remarks will set the scene for the event and outline its objectives and structure, highlighting the importance of reporting under the adapted Governance Regulation for cooperation and evidence-based policymaking across Member States and Contracting Parties.

09:30-09:45	Icebreaker - participant introductions <i>All participants</i>
09:45-10:15	The adapted Governance Regulation: reporting as a driver of European integration and enlargement <i>[Virtual] Klara Orlowska, Policy Officer, Regional Strategy and Investment, DG ENEST</i> <i>[Virtual] Ana Maria Danila, Deputy Head of Unit, DG CLIMA</i> This session explores how the adapted Governance Regulation supports European integration and EU enlargement processes, with a focus on the role of reporting frameworks. - DG ENEST will address alignment with EU integration and enlargement objectives, while DG CLIMA will highlight the importance of robust reporting capacities for EU-level data aggregation and policymaking.
10:15-10:45	Stocktake of reporting progress and actions since last meeting <i>Daniel Giorev, Head of Climate Neutrality, Energy, and Mobility Unit, EEA</i> The EEA will present a stocktake of reporting progress since the annual meeting in Warsaw (June 2025), including an overview of the Governance Regulation and related reporting obligations. The session will highlight the role of the EEA and key stakeholders, as well as the importance of coordination, resources and capacity building, and provide an update on 2025 reporting activities and follow-up actions.
10:45-11:00	Coffee break and picture time
11:00-12:30	Learning from institutional capacity building: Examples from EU Member States and Contracting Parties <i>Cris-Tiina Pärn, Adviser, Estonian Environmental Research Centre</i> <i>Sandra Lazić, Ministry of Environmental Protection of Serbia</i> <i>Eva Jensen, Head of Climate Department and Circular Economy, EEA</i> Participants will hear experiences from a Member State, a Contracting Party and the EEA on strengthening institutional and coordination capacity for reporting. This will be followed by small group discussions to reflect on the different perspectives shared.
12:30-13:30	Lunch
13:30-14:30	Stocktake of quality of reported data <i>Per Wretlind, Climate Mitigation Monitoring Expert, EEA</i> <i>Aneliya Nikolova, Climate Adaptation Expert, EEA</i> <i>Claire Qoul, GHG Inventories and Review Expert, EEA</i> <i>Oskar Gustafsson, Climate Mitigation and Energy Expert, EEA</i> The EEA will present an assessment of the quality of data reported under the adapted Governance Regulation. The stocktake is organised by reporting area, covering GHG inventories, mitigation, adaptation, energy and climate finance.

14:30-15:00	Quality of energy data reported under the adapted Governance Regulation – perspective from the Policy Reporting Platform <i>[Virtual] Peter Pozsgai, Lead of the CBAM Readiness Task Force, Governance Expert, Energy Community Secretariat</i> <i>[Virtual] Guus van der Schouw, Team Lead for Governance, Energy Union and Simplification, DG ENER</i> The Energy Community Secretariat will present an overview of the quality of energy data reported through the Policy Reporting Platform (formerly ReportENER) under the adapted Governance Regulation. DG ENER will then share how the European Commission uses data reported by Member States, including how data quality and usability have evolved over time.
15:00-15:15	Coffee break
15:15-16:00	Assessment of NECP progress <i>[Virtual] Anja Rosenberg, Technical Advisor, from the Energy Community Secretariat</i> <i>[Virtual] Robyn Mitchell, Policy Officer, DG CLIMA</i> The Energy Community Secretariat will present an assessment of national energy and climate plan (NECP) implementation progress based on data reported under the adapted Governance Regulation, focusing on progress towards NECP targets in Contracting Parties. This will be complemented by DG CLIMA's presentation on the European Commission's process for assessing Member State NECP progress.
16:00-16:15	Estonia's reflection <i>Merilyn Möls, Head of Climate Policy Strategy, Ministry of Climate of Estonia</i> The Ministry of Climate of Estonia will reflect on how the European Commission's assessment of Estonia's NECP implementation progress informs national policy development and decision-making. The intervention will highlight how EU-level feedback is used to strengthen planning, prioritisation and implementation at national level.
16:15-16:30	Day recap and key takeaways <i>All participants</i> The EEA will facilitate a plenary wrap-up, guiding participants in reflecting on the key takeaways from the day.
18:30	Dinner at Tallink Spa and Conference Hotel
DAY 2 3 JUNE 2026	
08:30-09:00	Registration and coffee Participants arrive at the event venue.
09:00-09:15	Harvesting forward <i>All participants</i> The EEA will facilitate a reflection on the previous day, highlighting key messages and takeaways, and guiding participants in identifying forward-looking insights.

09:15-09:45	Way forward <i>Per Wretlind, Climate Mitigation Monitoring Expert, EEA</i> <i>Aneliya Nikolova, Climate Adaptation Expert, EEA</i> <i>Claire Qoul, GHG Inventories and Review Expert, EEA</i> The EEA will present planned activities for the second half of 2026 and first half of 2027, to inform the subsequent discussion. This will also include an update on the upcoming comprehensive review of the GHG inventory.
09:45-11:30	World café on improving data quality and timely reporting <i>All participants</i> The EEA will facilitate a world café to identify concrete actions to improve data quality and ensure more timely submission of reported information. The discussion will aim to generate practical recommendations for both reporting institutions and the project, including potential follow-up actions.
11:30-11:45	Coffee break
11:45-12:15	Reflections on identified support needs <i>Monika Figaj, Climate and Just Transition Expert, Energy Community Secretariat</i> <i>Tomasz Karpinski, European Green Deal Expert on GHG Inventories and MRV, Energy Community Secretariat</i> The Energy Community Secretariat will reflect on key insights and their implications for future support, implementation and planning.
12:15-12:30	Conclusions and wrap-up <i>Daniel Giorev, Head of Climate Neutrality, Energy, and Mobility Unit, EEA</i> The EEA will deliver closing remarks, reflect on key takeaways and event outcomes, and present the next steps in the implementation of the adapted Governance Regulation.
12:30-13:30	Lunch
